Better Condition of Health is Reported From Santiago.

COMMISSION TALKING TERMS OF SURRENDER

WASHINGTON, July 15.—The war department has posted a dispatch from Assistant Adjutant-General Greenleaf, of General Miles' staff, as follows:

"Siboney, July 15.—Only twenty-three cases of yellow fever and three deaths reported within the past twenty-four hours. Type of disease mild. Camp site moved whenever practicable. Have taken vigorous sanitary precautions to prevent the spread of the disease."

THE COMMISSON TO ARRANGE SURRENDER.

WASHINGTON, July 15.—All the information obtainable from the seat of war is composed in the following cablegrams:

"Playa, Baiquiri, July 15, Secretary War, Washington.—Commission on behalf of the United Sates appointed, consisting of Generals Wheeler and Lawton and Lieutenant Miley, with Spanish commission to arrange the details for carrying into effect the capitulation. I will reach Siboney tomorrow. MILES."

The second dispatch is signed Jones, a signal officer in charge of the terminus of the military line at Playa and is as follows:

"Playa del Este, July 15.—The commissioners appointed to arrange the details of the surrender, held a meeting yesterday lasting until a late hour. They meet again this morning at 9:30 o'clock and it is supposed the terms will be settled today."

COMMISSION WORKING ON TERMS OF SURRENDER.

WASHINGTON, July 15.—The following statement has been issued by Secretary Alger from the dispatches he has received from the officers at Santiago:

"The commissioners on the part of the United States named by General Shafter were Generals Wheeler, Lawton and Lieutenant Miley. Their discussion lasted until late last night and was taken up by them at 9 o'clock this morning.

This surrender covers a great area of eastern Cuba. Of course the details may take some little time, but they are being pushed forward as rapidly as possible."

NO DETAILS OF THE SURRENDER.

WASHINGTON, July 15.—Today's cabinet meeting adjourned without knowledge of the details of the terms of surrender which were to be made at Santiago by the commissioners referred to by General Shafter in his dispatch of yesterday. Nothing further has been received from the general on this subject and the assumption is that the commissioners are still at work endeavoring to arrange the details of the surrender.

These are likely to be more complex than are generally supposed, for aside from matters of actual moment, such as the methods of transportation, the carriage of arms by troops and the transportation of the surrendered Spanish officers, there are many smaller matters to be attended to, some of them growing out of the fantastic Spanish notions of honor, which are quite as troublesome to deal with as matters of vital importance.

The French cable was shut down over night, and that was supposed at first to be the reason why further reports were not forthcoming from Shafter or Miles.

It was believed that the cable operators, Frenchmen, had become wearied from their protracted labors, and refused to continue at work last night. But with morning came a renewal of cable communication, though no messages from Shafter were on file.

FEVER CONDITIONS HAVE IMPROVED.

WASHINGTON, July 15.—Many inquiries are coming to the war department as to the condition of the sick and wounded American soldiers near Santiago. The appearance of yellow fever among the troops was an additional cause of apprehension and doubled the number of queries. The war department does not deem it prudent just now to make any detailed statement relative to the condition of those in camp but Adjutant General Corbin stated that he could say that so far as the yellow fever was concerned the conditions at last reports were certainly better than they were two days ago.

Colonel Hecker, who is in charge of the transportation service of the war department, is now busy trying to arrange for the conveyance home to Spain of the Spanish soldiers who surrendered in Santiago.

There is a disposition to appeal directly to the great steamship transportation line to make bids to carry these people. The adoption of such a course would relieve the government of a great responsibility.

It would put the Spaniards under a neutral flag, which would insure their reception without difficulty at home and it would relieve our government of the necessity of sending with the prisoners the heavy guard that would be required if they were conveyed on United States transports.

Economically, it was thought that the proposition was a sound one. Assuming that the companies charged the usual passenger rates for soldiers, the transfer could be affected at a cost not to exceed $500,000, a sum which is probably less than would be the cost of the service if undertaken directly by our government. But a disagreeable complication has arisen from the fact that reports indicate that yellow fever exists among the Spanish troops as well as among our own and it is feared that if these reports are well founded it may be difficult to induce transportation companies to undertake the task of conveying sick soldiers and those who had been exposed to infection.

There is also doubt whether the Spanish authorities would allow the men to land on Spanish soil.

Adjutant General Corbin said that the necessary rations to care for the Spanish soldiers when they surrendered had been secured, and were now in place for immediate delivery at Santiago. It is presumed that the quartermaster's officers will avoid the enormous undertaking of transporting these supplies over the mountain trails by sending these supplies in vessels into the harbor to the city of Santingo.

This, it is believed, can be done safely as the terms of surrender will doubtless require the Spanish to indicate the location of the mines in the harbor. It is expected that the great body of refugees that fled from the town on the threat of bombardment will now return and great distress is expected to result from the lack of food supplies.

General Shafter has been allowed to exercise his full discretion in dealing with these refugees, and, while he will not assume the responsility for their maintenance, he will, without doubt, spare as many rations as possible from his stores to aid these unfortunate people.

HOPEFUL OF PEACE.

President Believes the End of the War is Near.

Thinks Spain Will Soon Begin Suit for Peace.

There Will, However, be no Easing Up on the Enemy.

The War Will be Vigorously Prosecuted Until There is Realized All for Which it Was Undertaken.

WASHINGTON, July 15.—President McKinley gave expression today to a strong hope for an early peace. Responding to congratulations on the success of the Santiago campaign, he said:

"I hope for early peace now."

In the course of other interviews he gave voice to the same sentiment, not expressing his entire belief, but a strong hope, that peace would come. The dispatch from Madrid announcing the royal decree suspending individual rights in Spain was quickly communicated to the president and read at the cabinet meeting.

As in Madrid, it was generally taken to mean the imminence of a move of the Spanish government for a cessation of hostilities. It was received with this interpretation with great satisfaction but in the absence of a definite official announcement of Spanish motive, the administration, while strongly hoping for it, is not entirely confident of so satisfactory an outcome. A member of the cabinet expressed his opinion that the issuance of the decree at this time indicated the end was not far off. But he was not sure that was the Spanish intention. He cited the frequency of misconstruction of Spanish motives and the intentional misleading as to the course it intended to pursue. At the same time he took a hopeful view of the situation and thought that the royal pronunciamento might, in the exigency of the Spanish case, prove to be the entering wedge in a peace movement.

SPANISH PRISONERS ARE SERIOUSLY SICK.

PORTSMOUTH, N. H., July 15.—The auxiliary cruiser Harvard, having on board 1,008 Spanish prisoners, arrived in Portsmouth harbor this morning. The port physician boarded the vessel and in company with the Spanish doctor made an inspection.

His visit disclosed the fact that nearly half of those on board are ill. Six Spaniards died on the passage from Santiago to Portsmouth, another death occurred this forenoon, and three patients were not expected to live until night.

LOSSES HEAVY.

Imperial Toops in China Slain by Thousands.

The Rebels Have Been Victorious in Heavy Engagements and Are Well Armed.

HONG KONG, July 15.—The defeat of the imperial troops, near Woo Chow, is confirmed. Thousands of bodies have been recovered from the river and have been buried at Woo Chow. The losses of the imperial forces are probably more than 1,500 killed, which was the number first announced.

It is reported here that the Chinese doctor Sun Yat Senm, who was inveigled into the Chinese embassy in London in 1896 and imprisoned there until he succeeded in notifying the British government official through a friend that he had been kidnaped, is among the leaders of the present rebellion.

It is said the rebels have decided not to advance further than Shu Hing above Sams Huey, fearing foreign complications in the event of Canton being attacked.

The credibility of this report is questioned, as the inhabitants of Canton are greatly in sympathy with the rebels.

In 'Squire France's court this afternoon, Mrs. Maggie Racht was on trial for provoking Josie Conner. The parties live on Killia street.

ESCAPED THE STORM

All Was Ready for Terrific Onslaught Against Santiago.

ARMY AND NAVY WERE IN BATTLE ARRAY.

OFF AUGADORES, July 14, 3 p. m., via Port Antonio, July 15, 4:15 a. m.—Santiago de Cuba was surrendered today. Menaced by American forces on land and sea, disheartened by past defeats and without hope of victory, General Toral yielded the city to save his people. With the final stroke of the Spanish general's pen the only stronghold in the province of Santiago has fallen, and the power of Spain in eastern Cuba is crushed.

What the terms of the surrender were is not yet known. They may be made public when General Miles returns from the front tonight and they may be suppressed for days.

On board the flagship New York it is believed that the surrendered Spanish officers will be permitted to retain their side arms and that the Spanish army will be given safe convoy to Spain. Admiral Sampson has not yet been informed of the details of capitulation.

The end came swiftly and unexpectedly. The Santiago campaign, with its deeds of splending daring and dark with the record of slaughter, had been believed by many men high in rank to have only just begun.

The refusal of the Spanish to surrender has been so emphatic and so recent that both army and navy had forsaken the idea of victory without further bloodshed and noon today had been set for the final and desperate assault upon the stubborn defenses of the city.

That its fortifications were strong and that its forces were brave all knew, and today had been looked forward to as likely the bloodiest in the history of the campaign; and, when soon after 2 o'clock this afternoon, Admiral Sampson received by signal the news that General Toral had surrendered, the admiral and his officers scarcely credited the story.

Whether Morro castle and the batteries above the harbor will also surrender is, at 3 o'clock this afternoon a matter of conjecture. At that hour the Spanish flag still floated above Morro castle and the Spanish forces still clustered about the earthworks and batteries. With the American army controlling Santiago, however, further resistance by the harbor batteries would be absurd and their surrender undoubtedly will quickly follow General Shafter's occupation of the town, if, indeed, the sea front fortifications and all others are not included in the city's capitulation.

When General Toral on Monday last refused absolutely to consider the terms of unconditional surrender and when General Shafter announced negotiations at an end, it was believed that the taking of the city without further fighting was an impossibility. The artillery of the federal forces was ordered to be rushed to the front, the investing line was extended to surround the town completely, and every preparation was made for the final assault.

Acting under instructions from Washington, however, General Shafter again proposed surrender yesterday, and at a conference at which General Miles and General Toral were present it was proposed to allow Spanish officers to retain their side arms and the American commander offered to send the defeated army to Spain under convoy and on parole.

The story of the conference has already been told. General Toral's announcement that the matter would have to be referred to his government convinced the officers at the headquarters that nothing further would come of the negotiations and an order was issued to prepare for a general attack at noon today, at which hour the extended armistice expired. The men at the front made every preparation for battle, the fleet gathered around the little bay of Aguadores, ready to hurl shell over the hill and into the city, and the combined American forces quietly and grimly awaited the word of General Miles.

But while all these preparations were going forward, General Shafter and General Miles were still hard at work in an attempt to avoid the slaughter which must follow an attack.

The telephone and telegraph wires from the front to Juragua were burdened all the forenoon with messages to and from Washington and General Toral was busy in communicating with either Captain General Blanco or with the government at Madrid. At about 11 o'clock General Miles sent an aide de camp from Juragua to Rear Admiral Sampson, telling him the chances for a surrender were good and that no shots must be fired from the fleet without definite orders from the shore.

As the hour of noon approached the New York ran close in shore at Aguadores and took up a position in readiness for the expected bombardmen by the fleet of the hidden city.

The Brooklyn ran close to the rear of the New York and the other vessels took up positions previously assigned to them. The swift little Hist steamed down to Juragua to await word from General Miles.

Noon came and although the expected call to quarters was not issued the men lingered anxiously, close to their places, eager to begin the work of bombardment. From the bridges of the warships the officers trained their glasses alternately on the signal station ashore and the transports off Juragua, behind which the Hist had disappeared.

As 1 and 2 o'clock passed without an order to begin bombardment the excitement among the officers who knew the significance of the delay became intense. It was but a few minutes past 2 o'clock when the Hist pushed her way from behind the anchored transports and started on the short run from Juragua to Aguadores. Rolling and pitching in the rough sea, the gallant little yacht dashed for the flagship, signalling as she pressed onward.

The battleship Oregon was the first vessel in line and the signal "the enemy has surrendered," was the first made out from the bridge of Captain Clark's ship. A cheer burst from the officers on the after deck and it was echoed by the men clustered forward.

At almost the same instant the other ships in the fleet caught the momentous meaning of the bright colored signal lights which flashed

TO GO WITH BROOKE.

Camp Thomas Soldiers Soon to See Service.

They Will Form the Porto Rican Expedition.

All Are on the Qui Vive for Word to Move.

Enormous Amounts of Quartermasters' Supplies Have Been Shipped to Chickamauga Park.

CHICKAMAUGA, National Military Park, Tenn., July 15.—The departure of General Brooke for Washington, there to make arrangements for the expedition into Porto Rico, is the main question of interest at Camp Thomas.

The men of the regiments in the first corps are awaiting the outcome of the general's trip with especial interest on account of the fact that they will accompany him on the Porto Rican invasion. The first corps is ready to move at any time. The weather is again unfavorable for steady work today. Frequent showers interfere with the drills and the men are kept in camp the greater portion of the time.

Fifteen car loads of supplies—an entire train—are being unloaded at the camp today. The amount of supplies now on hand is enormous but more arrive daily.

Since the soldiers have been encamped here no less than from $3,000,000 to $5,000,000 worth of quartermasters' supplies have been issued the various commands by Captain McCarthy.

This does not include the enormous amount of clothing and equipage handled through the office of Captain Zalinski, in charge of these supplies as a separate department of the quartermaster's department. The returns of Captain McCarthy's office will be the largest to go to the war department since the civil war.

From official figures furnished by the quartermaster it is seen that at least $1,000,000 worth of stock has been handled since the mobilization of General Brooke's vast army.

According to statistics in Captain McCarthy's office there are now over 10,000 head of stock scattered over the great military camp.

There are now two regiments of cavalry, two extra troops of cavalry and about thirty-five batteries of artillery and several thousand horses are attached to the commands while the remainder are used as wagon and ambulance trains and officers' mounts.

Captain McCarthy estimates that the mules and horses are about equally divided as to numbers.

This stock consumes an enormous amount of forage in a month, much more than could be furnished in this section alone. The records for thirty days show that no less than 3,500,000 pounds of oats and 4,500,000 pounds of hay have been consumed

Among other interesting statistics shown at the quartermasters' office are those indicating the amount of cordwood burned in thirty days. The records indicate that over 5,000 cords of heavy timber is burned each month, used for cooking purposes exclusively. This wood is shipped into Camp Thomas by the car load.

Wagon load after wagon load of surplus baggage is now being packed at Camp Thomas and turned over to the quartermaster's department for safe keeping.

This includes extra overcoats, blankets and other clothing and equippage belonging to various states as well as all kinds of personal property belonging to the soldiers. The stuff is packed away in boxes, labelled with the company and regiment to which it belongs and stored in Chatanooga with the department quartermaster.

After the war is over this property will be turned over to the men to whom it belongs.

Summer clothing less than cost.

RIGHTS ANNULLED.

Civil Liberties in Spain Are Abolished by a Royal Decree.

TEMPORARY DESPOTISM A STEP TO PEACE.

MADRID, July 15.—8 A. M.—The Official Gazette today publishes a royal decree temporarily suspending throughout the Spanish peninsula the right of individuals as guaranteed by the constitution. The decree adds that the government will render an account to parliament of the use it may make of this measure.

The publication of the decree is generally accepted as being convincing proof that Spain is now ready to sue for peace and that negotiations to that effect are actually in progress. The government wishes to have full power to suppress any evidences of discontent or rebellion whenever they appear. The Carlists are furious and are sure to attempt to create trouble.

One minister expressed the conviction that official overtures for peace will be made before Sunday, and there is reason to believe that France has offered her services to Spain and that Spain has drawn up conditions for peace which offer a basis for negotiations.

Premier Sagasta is quoted as saying that Spain wants peace, but that "it must be an honorable peace as Spain deserves. The army," the premier is said to have added, "is anxious to resist to the last, but the government cannot consent to such a useless sacrifice. Had we our fleet the situation would be very different."

CORREA OUTLINES A BASIS OF PEACE.

MADRID, July 15.—NOON.—The minister for war, General Correa, is quoted as saying in an interview that he thought peace might be arranged on the following terms:

The United States and Spain to agree to let the Cubans decide by a plebiscite whether they desire independence or autonomy under the suzerainty of Spain.

The two governments to agree to abide by the result of the plebiscite.

In the event of the Cubans voting for independence, the United States to allow Spain nine months in which to withdraw her army, gradually and dignifiedly from Cuba.

PACIFIC TENDENCY IS INCREASING IN SPAIN.

MADRID, July 15.—Noon.—The pacific tendency is increasing. The general public take a favorable view of the suggestion that the powers should attempt the establishment of peace, but it is said contrary to the reports current, France has not taken the initiative.

NO OVERTURES HAVE REACHED WASHINGTON.

WASHINGTON, July 15.—"There have been no overtures for peace received by any United States embassy or legation abroad or by the department of state at Washington."

That was the statement made by a member of the cabinet who is thoroughly familiar with the conditions as they exist today, and was called forth by various reports that ranged all the way from an announcement that the basis for a treaty of peace already had been reached, to the more guarded declaration that the Spanish government had conveyed in an unofficial manner to the United States government an intimation of some of the concessions it was prepared to make to secure peace.

The prospects for the speedy institution of peace negotiations have brigthened decidedly since the collapse of the Spanish resistance at Santiago. The moral effect of that victory for the American arms is beginning to be felt in the direction of peace. If the cabinet has discussed terms of peace up to this moment, the fact has not been divulged by any responsible source. Now and then one of the government's agents in Europe communicates some message summing up European gossip, and naturally in view of the earnest desire for the European powers, this gossip tends to bear out the belief that peace negotiations are at hand.

The president hopes so. He has made no concealment of his desire for a speedy termination of the war.

Such a position on his part is entirely irreconcilable with an earnest purpose to prosecute the war until its original purposes have been attained.

Before that time any overtures for peace must come from Spain. The news from Madrid that Spain had been practically placed under martial law is regarded as a most hopeful sign. It is construed to mean a purpose on the part of Spain to bind up in advance the turbulent elements in Spain that might be expected to take advantage of the public discontent caused by the heavy sacrifices the government must make to obtain peace in order to cause a revolution and overthrow the monarchy.

It is realized here by the officials that every day will bring forth a fresh crop of peace rumors, few with any foundation, but their very circulation and the credence gained for them is regarded as encouraging a general belief that the Spanish cause is near its end.

BRITISH SCHOONER HELD BY PRIZE CREW.

KEY WEST, Fla., July 15.—The British schooner E. R. Nickerson, which was captured on July 30 by the Hornet, Hist and Wampatuck, off Cape Cruz, while attempting to run the blockade into Manzanillo, was brought here this morning by a prize crew under Lieutenant Dougal. She had a cargo of provisions, hogs, goats, etc. She had a crew of negroes and two passengers are on board. She was bound from Jamaica.

LARGE ORDER FOR SHRAPNEL SHOT.

CUYAHOGA FALLS, Ohio, July 15.—The Falls Rivet and Machine company of this place has received a large order from the government for shrapnel shot and for 3,000 7-inch howitzers of 105 pounds each. The works of the company will be enlarged to fill orders.

GLOOMY STORIES COME FROM ILIOLO.

HONG KONG, July 15.—Letters received here today from Iliolo, dated July 8, say a severe scarcity of food and cash prevails there. The merchants are using paper in their business transaction, payable on the arrival of funds. The sugar mills have been stopped owing to the working people having deserted. The cane is rotting in the fields and it is estimated that a quarter of the sugar crop is already ruined.

McCoy and Corbett Sign Articles.

NEW YORK, July 15.—Articles of agreement for fight between James Corbett and "Kid" McCoy, the match to take place at Hawthorne Athletic club, of Buffalo, on September 10, were signed in this city today. McCray signed for the Hawthorne Athletic club. George F. Considine for Corbett and W. B. Gray for McCoy. The purse is to be $20,000, the winner to take all.

GENERAL TORAL appears to be a wise and discriminating gentleman.

THE Spanish commander at Santiago is no porker. He knows when he's got enough and he had plenty.

LET the government stick to the original proposition and return the Spaniards to Spain. America has no need of them.

IT is not at all probable that General Toral over heard the story of Davy Crockett and the coon, but he knows that same lesson of philosophy that the coon had learned.

IF Blanco is bursting with desire to die for country let him return to Spain and get himself hanged for a blustering fool. He it is who wants the war continued.

GERMANY "doth protest too much." Her neutrality will be quite apparent to the United States always when she is neutral. So long as the kaiser is no ally of Spain it will be unnecessary for his journals to set out to prove by diagrams and rows of figures that he is keeping to the "middle of the road." Uncle Sam has not played this sort of chess so much as Germany, but he knows how and when to checkmate. Watch him.

IT IS PROPOSED to devote one night during the forthcoming street fair to a carnival of merrymaking much after the fashion of the Mardi Gras festivals given in New Orleans. St. Louis, Kansas City, and other cities. The city is to be turned over to the masquers and revelry is to reign. This is all very well, but the committees having charge of the fair should recollect that different people will hold different notions as to what constitutes fun. No one should be restricted in the enjoyment of any proper and legitimate pleasure, but there are those who will take advantage of such a festival to commit indulgences that ordinarily no decent person would think of tolerating for a moment. Let there be a carnival, but let the committees and the authorities see to it that it is confined to the bounds of decency. It will be well for Fort Wayne to avoid at the outset the embarrassments that have attended similar festivals in other cities.

The Surrender of Santiago.

The fall of Santiago ought to end the war. It is somewhat doubtful, however, if such is to be the fruit of the magnificent victory begun by Commodore Schley and completed by General Shafter.

The territory surrendered is comprised of about one-third of Santiago de Cuba, the easternmost province of the island, and the troops to lay down their arms include pretty nearly all of the effective force of Spain's fourth army corps in Cuba. Manzanillo and Holguin, considerable cities with Spanish garrisons, are not included in the surrender.

The surrender is important on many accounts, but in none more than that which relates to the condition of the American army. Yellow fever has broken out in American camps and there will be plenty to do fighting the pestilence without having at the same time to fight Spaniards. The center of Spanish power in eastern Cuba being broken, the enemy disarmed and his stronghold in our possession, the care of our brave soldiers becomes the next and highest duty and happily there is nothing to embarass such attentions.

The critics who have been railing at the conduct of the Santiago campaign, and they were numerous, may now take a retrospective squint and then confess they were wrong all the time. General Shafter has managed a masterly campaign. What has seemed useless delay was time well spent. Those who thought Toral was fooling Shafter with a trick to gain time, themselves have been fooled. With no more sacrifice of life than followed in the fighting for advanced position at the front, General Shafter has forced the capitulation of the city and is now in possession.

Whether this last blow to fall upon the stupid Spanish noddle will be enough to bring on an awakening of common sense may be doubted, though as much is dearly to be hoped.

ESCAPED THE STORM.

[CONTINUED FROM FIRST PAGE.]

at the Hist's swaying mast head and a great cheer from a host of American throats swept through the squadron from ship to ship, while answering pennants flew from each vessel in response to the New York's repetition of the Hist's signal.

Eventually the Hist ran alongside the flagship and delivered her dispatch. It contained no details, being simply a brief message by wire to Admiral Sampson from General Shafter that the enemy had surrendered.

The admiral had not taken an active part in the negotiations, but he was consulted freely by General Miles and General Shafter, and undoubtedly he will be considered in the settlement of the final details of the surrender. He declined to discuss the matter further than to express joy at the fact that the taking of Santiago was accomplished without further bloodshed and to remark that the terms of the capitulation were not to be made known for some time.

Within five minutes of the Hist's arrival the signal officers ashore began sending messages with the wig-wag flag on the hill top to the right of the ravine, in which the ruins of Aguadores fort lie. This hill has been selected as the signal station, and from there was telegraphed to Admiral Sampson a confirmation of the surrender. This message was as unsatisfactory as was the Hist's to the officers of the fleet, who were anxious to know the terms of the surrender and other details, while the wig-wagged messages simply set forth the bare statement that the surrender of Santiago had occurred. The Iowa was at once ordered to steam west to Morro Castle, evidently being sent to watch the movements of the men and the shore batteries.

General Toral surrendered in the nick of time, for had the plans of today's battle been carried out the city of Santiago would have been torn to pieces before night.

The fleet had the exact range and although the city was about eight miles away and hidden by the hills along the coast, Commodore Schley said that shells could be dropped in the heart of the town every two minutes for as long a time as General Shafter thought it necessary.

Aside from the work of the fleet, seven batteries of artillery were in position and so placed that three inch shells could have been hurled into the town from all sides.

The Spaniards, however, had made careful presparations and had even erected barricades in the streets, ready to fight to the very last.

General Shafter and his officers confidently expected the American loss to be heavy if the attempt had to be made to capture the city by assault, and elaborate hospital arrangements were made in anticipation of such an occurrence, a large number of tents having been erected at Siboney since the buildings there were burned.

The Board of Works Transacts Routine Business.

Cement Curbing to be Placed on the West Side of Hoagland Avenue--Cass Street Residents Want Same.

The board of public works' last evening received a delegation of Cass street residents who want Parkhurst cement curbing instead of Berea stone. They were accompanied by Attorney Henry Colerick, who presented the arguments of the Cass street petitioners. The matter was taken under advisement.

The board received, but did not act upon, the petition of M. H. Ankenbruck and others, for the vacation of the alley between Clay and Monroe streets, from Washington street to the alley south. The petition of O. N. Heaton and others, asking that a cement sidewalk be constructed next the curb on the west side of Hoagland avenue, from Creighton avenue to Pontiac street, was acted upon favorably, and the engineer was ordered to prepare the plans. The petition of S. A. Drew and others asking that a sewer be constructed in the alley between Elm and Main streets, from Mechanic street to the river, was received and plans were ordered.

The bond of George Wilhelm for relaying a sidewalk, was approved.

The resolution declaring the original plat of Williams' Woodlawn Park addition vacated, was confirmed, and the board then approved the second plat submitted for review.

Assessment rolls for the West Columbia street pavement, for grading and building sidewalks on Andrews street, and for grading and building sidewalks on Cottage avenue, were approved and the work accepted.

The engineer was ordered to prepare plans and specifications for sidewalks on the west side of Wabash avenue, from Maumee avenue to the Wabash right of way.

Edward Seidel was ordered to remove obstructions from the five foot alley between Main and Berry streets, from Calhoun street to the alley west. This concluded the business of the evening and the board adjourned.

WANT A CURFEW LAW.

Executive Committee of Associated Charities Takes Action.

The executive committee of the Associated Charities met yesterday afternoon and elected S. M. Foster to the position on the committee made vacant by the resignation of Mrs. G. E Bursley. The committee also passed a resolution favoring the passage of a curfew ordinance and will urge the council to enact such a law at its next meeting. The members of the Associated Charities have been giving the matter considerable attention and believe that the license given children to be on the streets at night is bound to result in harm. The matter was discussed at the meeting of the committee yesterday afternoon and several of those present recited instances coming under their personal notice of children, many of them of good families, fast going to ruin through being permitted to wander about the streets until 9 or 10 o'clock at night.

Some Facts As To The Curfew Law.

The following letter is entirely self explanatory:

"To Mrs. Ellen Wright, Greensburg, Ind.:

"DEAR MADAM:—In reply to your request as to the effects for good or bad in our city of the curfew law, I can truly say that the law has been of great value. In my judgment our citizens are all convinced that this is true. At least the city officers all know it, and in Greensburg the curfew law has come to stay.

Respectfully,

"C. F. NORTHERN, Mayor."

The city of Lincoln, Neb., was the first to introduce the law, and Mayor Graham reports it a great success. The mayor says there was a decrease of 75 per cent. in the arrests of youths; no increase of police was needed to enforce the law, and there was a decided improvement in the morals of the young people.

Samuel Melick, chief of police of Lincoln, says: "Teachers in public schools say that since the law went into effect boys who formerly kept late hours on the streets at night, and were behind in their studies, under the curfew law attended school regularly, are mentally fresher and better prepared in their studies."

Three hundred towns and cities have passed the curfew law and it seems to be growing in favor everywhere. From many places where it has been tried there are enthusiastic praises of its merits.

Officials in Omaha, Denver, Des Moines, St. Joseph and other places are empatic in its praise.

Grand Benefit Entertainment.

The Woman's Relief Corps of the G. A. R., finding it necessary to raise a fund to provide for the wants of the soldier boys from Fort Wayne and any of their families that may need assistance, have arranged with the Holmberg Entertainment company, of Chicago, to give their fine illustrated entertainment all of next week at White's hall, opposite the Temple. The program embraces all the leading events of the present war, including views in Cuba, Puerto Rico, and the Philippines, as well as pictures of Dewey, Sampson, Schley and Hobson, Generals Miles, Shafter and Lawton, the battle of Manila, bombardment of Santiago and Matanzas, and over fifty pictures of the One Hundred and Fifty-seventh Indiana Volunteers, including the companies from Fort Wayne. In addition to this Mooring vitascope pictures will be shown, and patriotic and popular songs will be sung and illustrated. A brief descriptive lecture accompanies the war views. The company is highly endorsed by the press of other cities. There is no doubt as to the success of the undertaking, especially in view of the worthy object for which it is given.

STAR POINTER.

The Champion Travels an Exhibition Mile in 2:02 1-4.

The Fastest Record Ever Made by Any Horse This Early in the Season--Racing at Detroit.

PEORIA, Ill., July 15.—Star Pointer lowered the record of the Peoria mile track, made by Bumps, from 2:05 to 2:02¼. With two running mates, one of which accompanied him the entire mile and the other catching him at the half mile, he made the remarkable time on a track a trifle slow. It is the best record ever made by any horse on any track at this season of the year.

Twelve thousand people were on the grounds and cheered McClary and the handsome bay as they came down the stretch. Three attempts were necessary for the champion to get away, and on the second attempt Star Pointer paced past the first quarter post, where he broke. McClary pulled him down to a stop, and, returning, tried it over again. He nodded to Starter Updegraff as he came down, his running mate at his side, and the word was given. The first quarter was made in :30, the half in 1:01, the third quarter in :30¾ and the mile in 2:02¼.

The 2:09 pace, $1,000—Seachlight won in three straight hearts; Earlmont second and Carbonate third. Time, 2:07¼, 2:07, 2:12¾. Miss Williams and Joe He also started.

The 2:20 trot, $1,000—Rightwood won the fourth, fifth and sixth heats in 2:17¼, 2:16¾, 2:17; Maidino won the first and second heats 2:14¼ and 2:14¾; Greenfield Boy won the third heat in 2:15¼. Louise McMill, Wayne, Ridolf, Lone Wilton, Belle Onward, Anita and Pacet also started.

NEWTON W. WON AT DETROIT.

DETROIT, Mich., July 15.—After much splitting of heats Newton W. captured the 2:15 pace at Highland park. Harry Omer, the Ohio gelding, was in the race at all stages, the final heat being so close between him and Newton W. that none but the judges could tell the result. Results:

The 2:40 trot—Grace Darling won second, third and fourth heats. Time, 2:24½, 2:21¾, 2:22¼. Startella won first heat in 2:25. Clark, William C. K., Gertie D., Lulu M., and Mona B. also started.

The 2:15 pace—Newton W. won second, sixth and seventh heats; time, 2:11¼, 2:14¾, 2:15¼. Harry Omer won fourth and fifth heats in 2:15½ and 2:12¾. Rhoda Farrand won third heat in 2:11¾. Minneto won first heat in 2:10¼. J. D. Kirkwood, Edgar Ross and Dick Vail also started.

CHILE TO ISSUE MONEY.

Financial Crisis So Acute That Congress is Forced to Take Action.

VALPARAISO, Chile, July 15.—The financial crisis grows more acute. Congress has passed a law authorizing the president for one year to issue paper money to the extent of $50,000,000, to be loaned to banks on adequate guarantee. Twenty million dollars of this loan is issuable at 4 per cent. The president is further authorized to borrow £4,000,000 ($20,000,000) to enable him to withdraw the paper money at the end of four years.

Davis, Meeks and Lahr, of the Lincoln Tea company, had a hearing before United States Commissioner Logan yesterday on the charge of using the mails for improper purposes. Meeks and Lahr were released and Davis was compelled to give $200 bond. Dan Gorman was held and will be taken to Indianapolis to await trial.

NEW CASTLE WON.

Fort Waynes Had One Bad Inning and that Was Enough.

Clarence Smith's Home Run Started the Revelry and Nine Runs Crossed the Plate--Notes.

Fort Wayne played its first game of the series at New Castle yesterday, and with O'Meara ill and confined to his room, Hickey was compelled to go behind the bat. Minnehan was opposing his old mate in the box and did fairly well until the fifth inning, when, with the score a tie he was taken ill and had to retire. Clarence Smith succeeded him and in the sixth with men on bases, the three-fingered twirler lined out a home run. This started some rungetting, and when the inning was ended nine New Castle players had crossed the rubber. Herr's support was bad in this inning and the big blonde could not keep his opponents from hitting the ball. Thereafter they could not solve his delivery. Score:

OPENING NIGHT.

The Robison Park Theater to be Formally Dedicated This Evening.

This is the opening night at Robison park theater. For the accommodation of the patrons of the line, whose number tonight will be largely augmented, there will be a special service commencing at 6 o'clock, from which hour a car will be run every three minutes, thus greatly facilitating going to and returning from the park. To those who failed to receive invitations the management desires to say that no more invitations were issued than there are seats in the house, and as it is not likely that every recipient of an invitation will attend, there will be no difficulty in providing accommodations for all friends of the park who will present themselves.

Commencing tomorrow cars will leave the transfer station every twelve minutes during the forenoon instead of every hour as the present schedule is arranged. The twelve minute schedule will continue in effect until 6 p. m. when a five minute schedule will be observed. This schedule will be shortened should circumstances demand it. Guests this evening are requested to be in ther seats not later than 8:10 as the performance will commence promptly at 8:15. The reserving of seats will commence at 6 o'clock and those coming earliest will have first choice.

BOY KILLED.

Another Illustration of the Dangers of Train Jumping.

John Anderson Ground to Death Beneath Car Wheels at Ridgeville--Local and Personal.

Orca A. Antles, a lad about fourteen years old, was instantly killed by the cars at Ridgeville, Ind., yesterday afternoon. He attempted to climb upon a gravel train when it was in motion, lost his hold, fell and was litterly cut into pieces by the wheels. Four or five cars passed over the boy before the trainmen discovered him and could stop the train. The unfortunate lad was a member of one of Ridgeville's leading families and the accident has thrown the citizens of that village into the greatest sorrow. No blame for the accident can be attached to the trainmen.

The Wabash earned, in the first week of July, $218,875, an increase over the corresponding week of 1897 of $18,340.

Ora Phibbs was overcome by the heat yesterday afternoon at the Bass blacksmith shop and had to quit work.

Train Dispatcher Samuel Taylor and his son, Richard, have returned from London, Ontario, where they visited two weeks.

Charles McCoy, of the Wabash shops, is sick. He is a son of Foreman Jack McCoy, of the erecting department of the Wabash machine shop.

Mrs. J. E. Allen, wife of the Nickel Plate brakeman, is quite sick, and in consequence that gentleman has been unable to work for a few days.

Joe Buckley, of the Bass blacksmith shop, was prostrated by the heat on the streets last night and had to be taken home. He is better today, but unable to work.

The owners of the Toledo and Northwestern have decided to extend the line to Hanover, where it will connect with the Detroit, Toledo and Milwaukee, a Brice line.

Within the last thirty days nine employes on the Chicago and Eastern Illinois have been discharged for using intoxicating liquors contrary to the rules of the company.

The present week there were repaired and turned out of the Pittsburg shops engines 152, 241, 246, 102 and 317, and taken in for repairs engines 229, 154, 224 and 1, making twelve still undergoing repairs.

Indianapolis Journal: "Passenger train men on the Pennsylvania line were yesterday notified that they must discard tan shoes and wear well-polished black shoes and dark or black neckties, instead of light ones."

The Chicago and Erie has made Rochester, Ind., a division point for its local freight and accommodation trains, and is putting in three miles of sidetrack and erecting a six-stall roundhouse, so constructed as to be readily enlarged.

The Chicago and Eastern Illinois has just placed a contract with the Pittsburg locomotive works for seven consolidated engines of the same type as the five built for that road recently, and which are performing satisfactorily.

The Erie has given notice of its withdrawal from the Buffalo Railway Passenger committee, and in passenger circles it is thought to mean a rate war between Buffalo and New York city, and possibly to Chicago, Cincinnati and other western points.

A beautiful American flag now waves from a mast on the Berghoff brewery. Last night the flag was unfurled with appropriate ceremony. It was purchased with money contributed by the employes of the Berghoffs. The completion of the unfurling ceremony was announced by cheers and the blowing of the brewery whistles.

President Caniff, of the Nickel Plate, will pass through the city on No. 5 this evening, en route to Chicago. Tomorrow morning he commences an inspection of the Monon road and will travel over the entire line by special train. In view of the fact that the Monon is said to be for sale and that the Vanderbilts are said to want the property, Mr. Caniff's trip is not without its significance.

Indianapolis Journal: "The latest report is that it is the Wabash that is seeking to secure control of the Monon. It certainly would be more valuable to the Wabash than any road which has been suggested, as it would let the Wabash into Louisville, Indianapolis and the stone quarries of Bedford, and would really be a sensible deal. Still, there is the best of authority for saying that the Monon is not for sale."

The merits of the Baldwin and the Brooks build of engines have been a question for dispute among Monon engineers for some months, each engine having its friend. Numerous tests of speed and hauling power have been made with the result that the Brooks engine can out run the Baldwin with a train of five cars, but when two or more cars are added, the Baldwin is the most speedy.

General Superintendent Magee has announced that any employe in present good standing on the Wabash records desiring to enlist in the United States army for the present war with Spain, will retain his standing record with the Wabash railroad, provided that he returns to its employ within thirty days after his honorable discharge from the service of the government, such discharge to follow the termination of the Spanish war within a reasonable time.

A GREAT CHRISTIAN HOST.

Ten Thousand Delegates Attending the B. Y. P. U. Convention in Buffalo.

BUFFALO, N. Y., July 15.—Fully 10,000 delegates and visitors to the annual convention of the Baptist Young People's union have registered at headquarters. The banner for senior work in the bible course went to the Oakland church of Pittsburg, Pa.; that for senior work in the sacred literature course, to the Fourth church of Minneapolis. FOR THE SOLDIER BOYS.

A Benefit Lawn Festival to be Given in the Near Future.

It is not a comforting matter to chronicle, but it is said to be true that the people of Fort Wayne are not as solicitous for the welfare of the brave boys who have gone to the war as are the people of many other communities. The boys in camp at Chickamauga report that their comrades from other cities and other states are handsomely remembered by friends at home, receiving many boxes of delicacies and necessaries that the camp does not afford, whereas the Fort Wayne soldiers seem to have been forgotten.

This state of affairs has aroused some of the kind and patriotic Fort Wayne ladies to activity and a lawn festival will be held in the near future, the proceeds to be devoted to the soldiers from this city. Mrs. Frank Alderman and Mrs. George B. Crane have taken the initative and have invited the co-operation of the Hibernian Rifles to make the project a success. Last night a committee from the Hibernian Rifles met a committee of ladies at the home of Mrs. Alderman and some of the preliminary details of the festival were arranged. The festival will be held at the Alderman home and one of the bands of the city will be present.

SUMMER NIGHT FESTIVAL.

Fort Wayne Turn-Verein to Have an Outing at Centlivre Park Monday.

Next Monday afternoon and evening the Fort Wayne Turn-Verein will give a grand concert and scholar picnic and summer night's festival at Centlivre park. There will be a concert by the City band from 2 o'clock until 6 o'clock in the afternoon. At 4 o'clock gymnastic games and athletic exercises will begin. Among the features will be the performance of Alfred Kresse, of Detroit, on the swinging rings. Professor Kresse has but one leg, but he is nevertheless an artist on the rings and his performance is said to be marvelous.

Inspired by the splendid American victory at Santiago the patriotism of Master Wilbur Bloom, son of Undertaker Bloom, this morning burst all restraint and he raised a fine flagstaff at his home, 185 Columbia avenue, this morning. From the peak of the staff the stars and stripes are proudly floating in the cool breezes of the upper atmosphere.

Mrs. E. W. Huntsman, Mrs. Belle Gerding and Master Thomas Shults, of Leipsic, Ohio, visited the former's sister, Mrs. O. H. Lilley, of West Main street, yesterday. Mrs. Huntsman and Master Thomas left this morning for Albion, Ind., where they will spend a few weeks.

Miss Della Sellmeyer, of Decatur, Ind., is the guest of Mrs. Henry Schwartz, of South Calhoun street.

Andrew Squires, of Cleveland, attorney for the Guardian Trust company, is in the city on legal business connected with the street railway company.

Miss Ada Minnich, an employe of the Paragon Manufacturing company, who lives at 52 North Harrison street, was feeding shirts into a steam roller presser and in some manner her hand was caught between the heavy rollers and was drawn into the machine as far as her elbow. The tissues of the arm were badly bruised, but no bones were broken or crushed. Fortunately, too, the rollers were not hot, but were being used as a press, rather than an ironer, as they are generally used. Dr. Dinnen attended the injured girl and dressed the wounded arm

Rev. Roland Hull, an eminent clergyman of the Baptist Church, residing at Williamsport, Tennessee, endorses Utah Kidney Beans for the great relief his wife received from using them. Rev. Mr. Hull is known from one end of the State of Tennessee to the other, having been in the ministry for over half a century. This good man would not endorse a medicine or anything else unless he knew beyond the shadow of a doubt that it was worthy. Therefore, such endorsements give Utah Kidney Beans a standing that no other kidney remedy in the country has. Mrs. Hull received great benefit from the use of Utah Kidney Beans; they gave her new strength—and new life. They will lift all sufferers from kidney troubles out of sick beds and restore them to vigorous health. Strength begins to return after the first few doses.

Huntington Herald: "Col. R. G. Thompson, of the Wabash railway, was down from Fort Wayne this morning. Asked as to the rumor of his candidacy for secretary of state, Mr. Thompson said he had no such purpose. He had received very gratifying offers of support from many sources throughout the state, but his affairs were in such a shape as to make it impossible for him to become a candidate this year."

A crowd of lovers of the dance went to Rome City last evening at 7 o'clock, returning about midnight. The affair was under the auspices of the D.'s of T., which was enough to insure its social success in every way. Mr. and Mrs. Will Reitze, Mr. and Mrs. A. L. Randall were among the chaperons, and the Fort Wayne colony at the little resort displayed their approving countenances during the evening. In spite of the heat in the city yesterday, it was cool enough near the lake breezes to trip the waltz and two-step, and not many "sat out" the numbers.

A very enjoyable party was given Wednesday evening by Miss Frances Shuckman in honor of her guest, Miss Kittie Zulfer, of Chicago. Progressive pedro was the game of the evening and at 11 o'clock dainty refreshments were served.

Mr. and Mrs. H. A. Durnell, while riding on East Main street car 25 this morning, lost a pocket book containing over $25. The purse was found by Conductor Cary, who immediately returned it to the owners, who offered the honest man a reward, which he refused.

The people of Fort Wayne showed their patriotism and willingness to help Uncle Sam whip the Spaniards by subscribing for almost $200,000 of the war bonds. Almost one-half of these bonds were subscribed for by persons who could only buy less than $500 worth, demonstrating that even the less wealthy are willing to take a chance on Uncle Sam's promise to pay, especially when he needs the money to whip some sneaking foreign country with.

COMMISSION TALKING TERMS OF SURRENDER

WASHINGTON, July 15.—The war department has posted a dispatch from Assistant Adjutant-General Greenleaf, of General Miles' staff, as follows:

"Siboney, July 15.—Only twenty-three cases of yellow fever and three deaths reported within the past twenty-four hours. Type of disease mild. Camp site moved whenever practicable. Have taken vigorous sanitary precautions to prevent the spread of the disease."

THE COMMISSON TO ARRANGE SURRENDER.

WASHINGTON, July 15.—All of the information obtainable from the seat of war is composed in the following cablegrams:

"Playa, Baiquiri, July 15, Secretary War, Washington.—Commission on behalf of the United Sates appointed, consisting of Generals Wheeler and Lawton and Lieutenant Miley, with Spanish commission to arrange the details for carrying into effect the capitulation. I will reach Siboney tomorrow. MILES."

The second dispatch is signed Jones, a signal officer in charge of the terminus of the military line at Playa and is as follows:

"Playa del Este, July 15.—The commissioners appointed to arrange the details of the surrender, held a meeting yesterday lasting until a late hour. They meet again this morning at 9:30 o'clock and it is supposed the terms will be settled today."

COMMISSION WORKING ON TERMS OF SURRENDER.

WASHINGTON, July 15.—The following statement has been issued by Secretary Alger from the dispatches he has received from the officers at Santiago:

"The commissioners on the part of the United States named by General Shafter were Generals Wheeler, Lawton and Lieutenant Miley. Their discussion lasted until late last night and was taken up by them at 9 o'clock this morning.

This surrender covers a great area of eastern Cuba. Of course the details may take some little time, but they are being pushed forward as rapidly as possible."

NO DETAILS OF THE SURRENDER.

WASHINGTON, July 15.—Today's cabinet meeting adjourned without knowledge of the details of the terms of surrender which were to be made at Santiago by the commissioners referred to by General Shafter in his dispatch of yesterday. Nothing further has been received from the general on this subject and the assumption is that the commissioners are still at work endeavoring to arrange the details of the surrender.

These are likely to be more complex than are generally supposed, for aside from matters of actual moment, such as the methods of transportation, the carriage of arms by troops and the transportation of the surrendered Spanish officers, there are many smaller matters to be attended to, some of them growing out of the fantastic Spanish notions of honor, which are quite as troublesome to deal with as matters of vital importance.

The French cable was shut down over night, and that was supposed at first to be the reason why further reports were not forthcoming from Shafter or Miles.

It was believed that the cable operators, Frenchmen, had become wearied from their protracted labors, and refused to continue at work last night. But with morning came a renewal of cable communication, though no messages from Shafter were on file.

FEVER CONDITIONS HAVE IMPROVED.

WASHINGTON, July 15.—Many inquiries are coming to the war department as to the condition of the sick and wounded American soldiers near Santiago. The appearance of yellow fever among the troops was an additional cause of apprehension and doubled the number of queries. The war department does not deem it prudent just now to make any detailed statement relative to the condition of those in camp but Adjutant General Corbin stated that he could say that so far as the yellow fever was concerned the conditions at last reports were certainly better than they were two days ago.

Colonel Hecker, who is in charge of the transportation service of the war department, is now busy trying to arrange for the conveyance home to Spain of the Spanish soldiers who surrendered in Santiago.

There is a disposition to appeal directly to the great steamship transportation line to make bids to carry these people The adoption of such a course would relieve the government of a great responsibility.

It would put the Spaniards under a neutral flag, which would insure their reception without difficulty at home and it would relieve our government of the necessity of sending with the prisoners the heavy guard that would be required if they were conveyed on United States transports.

Economically, it was thought that the proposition was a sound one. Assuming that the companies charged the usual passenger rates for soldiers, the transfer could be affected at a cost not to exceed $500,000, a sum which is probably less than would be the cost of the service if undertaken directly by our government. But a disagreeable complication has arisen from the fact that reports indicate that yellow fever exists among the Spanish troops as well as among our own and it is feared that if these reports are well founded it may be difficult to induce transportation companies to undertake the task of conveying sick soldiers and those who had been exposed to infection.

There is also doubt whether the Spanish authorities would allow the men to land on Spanish soil.

Adjutant General Corbin said that the necessary rations to care for the Spanish soldiers when they surrendered had been secured, and were now in place for immediate delivery at Santiago. It is presumed that the quartermaster's officers will avoid the enormous undertaking of transporting these supplies over the mountain trails by sending these supplies in vessels into the harbor to the city of Santiago.

This, it is believed, can be done safely as the terms of surrender will doubtless require the Spanish to indicate the location of the mines in the harbor. It is expected that the great body of refugees that fled from the town on the threat of bombardment will now return and great distress is expected to result from the lack of food supplies.

General Shafter has been allowed to exercise his full discretion in dealing with these refugees, and, while he will not assume the responsility for their maintenance, he will, without doubt, spare as many rations as possible from his stores to aid these unfortunate people.

HOPEFUL OF PEACE.

President Believes the End of the War is Near.

Thinks Spain Will Soon Begin Suit for Peace.

There Will, However, be no Easing Up on the Enemy.

The War Will be Vigorously Prosecuted Until There is Realized All for Which it Was Undertaken.

WASHINGTON, July 15.—President McKinley gave expression today to a strong hope for an early peace. Responding to congratulations on the success of the Santiago campaign, he said:

"I hope for early peace now."

In the course of other interviews he gave voice to the same sentiment, not expressing his entire belief, but a strong hope, that peace would come. The dispatch from Madrid announcing the royal decree suspending individual rights in Spain was quickly communicated to the president and read at the cabinet meeting.

As in Madrid, it was generally taken to mean the imminence of a move of the Spanish government for a cessation of hostilities. It was received with this interpretation with great satisfaction but in the absence of a definite official announcement of Spanish motive, the administration, while strongly hoping for it, is not entirely confident of so satisfactory an outcome. A member of the cabinet expressed his opinion that the issuance of the decree at this time indicated the end was not far off. But he was not sure that was the Spanish intention. He cited the frequency of misconstruction of Spanish motives and the intentional misleading as to the course it intended to pursue. At the same time he took a hopeful view of the situation and thought that the royal pronunciamento might, in the exigency of the Spanish case, prove to be the entering wedge in a peace movement.

SPANISH PRISONERS ARE SERIOUSLY SICK.

PORTSMOUTH, N. H., July 15.—The auxiliary cruiser Harvard, having on board 1,008 Spanish prisoners, arrived in Portsmouth harbor this morning. The port physician boarded the vessel and in company with the Spanish doctor made an inspection.

His visit disclosed the fact that nearly half of these on board are ill. Six Spaniards died on the passage from Santiago to Portsmouth, another death occurred this forenoon, and three patients were not expected to live until night.

LOSSES HEAVY.

Imperial Troops in China Slain by Thousands.

The Rebels Have Been Victorious in Heavy Engagements and Are Well Armed.

HONG KONG, July 15.—The defeat of the imperial troops, near Woo Chow, is confirmed. Thousands of bodies have been recovered from the river and have been buried at Woo Chow. The losses of the imperial forces are probably more than 1,500 killed, which was the number first announced.

It is reported here that the Chinese doctor Sun Yat Senm, who was inveigled into the Chinese embassy in London in 1896 and imprisoned there until he succeeded in notifying the British government official through a friend that he had been kidnaped, is among the leaders of the present rebellion.

It is said the rebels have decided not to advance further than Shu Hing above Sams Huey, fearing foreign complications in the event of Canton being attacked.

The credibility of this report is questioned, as the inhabitants of Canton are greatly in sympathy with the rebels.

In 'Squire France's court this afternoon, Mrs. Maggie Racht was on trial for provoking Josie Conner. The parties live on Killis street.

ESCAPED THE STORM

All Was Ready for Terrific Onslaught Against Santiago.

ARMY AND NAVY WERE IN BATTLE ARRAY.

OFF AGUADORES, July 14, 3 p. m., via Port Antonio, July 15, 4:15 a. m.—Santiago de Cuba was surrendered today. Menaced by American forces on land and sea, disheartened by past defeats and without hope of victory, General Toral yielded the city to save his people. With the final stroke of the Spanish general's pen the only stronghold in the province of Santiago has fallen, and the power of Spain in eastern Cuba is crushed.

What the terms of the surrender were is not yet known. They may be made public when General Miles returns from the front tonight and they may be suppressed for days.

On board the flagship New York it is believed that the surrendered Spanish officers will be permitted to retain their side arms and that the Spanish army will be given safe convoy to Spain. Admiral Sampson has not yet been informed of the details of capitulation.

The end came swiftly and unexpectedly. The Santiago campaign, with its deeds of splending daring and dark with the record of slaughter, had been believed by many men high in rank to have only just begun.

The refusal of the Spanish to surrender has been so emphatic and so recent that both army and navy had forsaken the idea of victory without further bloodshed and noon today had been set for the final and desperate assault upon the stubborn defenses of the city.

That its fortifications were strong and that its forces were brave all knew, and today had been looked forward to as likely the bloodiest in the history of the campaign; and, when soon after 2 o'clock this afternoon, Admiral Sampson received by signal the news that General Toral had surrendered, the admiral and his officers scarcely credited the story.

Whether Morro castle and the batteries above the harbor will also surrender is, at 3 o'clock this afternoon a matter of conjecture. At that hour the Spanish flag still floated above Morro castle and the Spanish forces still clustered about the earthworks and batteries. With the American army controlling Santiago, however, further resistance by the harbor batteries would be absurd and their surrender undoubtedly will quickly follow General Shafter's occupation of the town, if, indeed, the sea front fortifications and all others are not included in the city's capitulation.

When General Toral on Monday last refused absolutely to consider the terms of unconditional surrender and when General Shafter announced negotiations at an end, it was believed that the taking of the city without further fighting was an impossibility. The artillery of the federal forces was ordered to be rushed to the front, the investing line was extended to surround the town completely, and every preparation was made for the final assault.

Acting under instructions from Washington, however, General Shafter again proposed surrender yesterday, and at a conference at which General Miles and General Toral were present it was proposed to allow Spanish officers to retain their side arms and the American commander offered to send the defeated army to Spain under convoy and on parole.

The story of the conference has already been told. General Toral's announcement that the matter would have to be referred to his government convinced the officers at the headquarters that nothing further would come of the negotiations and an order was issued to prepare for a general attack at noon today, at which hour the extended armistice expired. The men at the front made every preparation for battle, the fleet gathered around the little bay of Aguadores, ready to hurl shell over the hill and into the city, and the combined American forces quietly and grimly awaited the word of General Miles.

But while all these preparations were going forward, General Shafter and General Miles were still hard at work in an attempt to avoid the slaughter which must follow an attack.

The telephone and telegraph wires from the front to Juragua were burdened all the forenoon with messages to and from Washington and General Toral was busy in communicating with either Captain General Blanco or with the government at Madrid. At about 11 o'clock General Miles sent an aide de camp from Juragua to Rear Admiral Sampson, telling him the chances for a surrender were good and that no shots must be fired from the fleet without definite orders from the shore.

As the hour of noon approached the New York ran close in shore at Aguadores and took up a position in readiness for the expected bombardmen by the fleet of the hidden city.

The Brooklyn ran close to the rear of the New York and the other vessels took up positions previously assigned to them. The swift little Hist steamed down to Juragua to await word from General Miles.

Noon came and although the expected call to quarters was not issued the men lingered anxiously, close to their places, eager to begin the work of bombardment. From the bridges of the warships the officers trained their glasses alternately on the signal station ashore and the transports off Juragua, behind which the Hist had disappeared.

As 1 and 2 o'clock passed without an order to begin bombardment the excitement among the officers who knew the significance of the delay became intense. It was but a few minutes past 2 o'clock when the Hist pushed her way from behind the anchored transports and started on the short run from Juragua to Aguadores. Rolling and pitching in the rough sea, the gallant little yacht dashed for the flagship, signalling as she pressed onward.

The battleship Oregon was the first vessel in line and the signal "the enemy has surrendered," was the first made out from the bridge of Captain Clark's ship. A cheer burst from the officers on the after deck and it was echoed by the men clustered forward.

At almost the same instant the other ships in the fleet caught the momentous meaning of the bright colored signal lights which flashed

TO GO WITH BROOKE.

Camp Thomas Soldiers Soon to See Service.

They Will Form the Porto Rican Expedition.

All Are on the Qui Vive for Word to Move.

Enormous Amounts of Quartermasters' Supplies Have Been Shipped to Chickamauga Park.

CHICKAMAUGA, National Military Park, Tenn., July 15.—The departure of General Brooke for Washington, there to make arrangements for the expedition into Porto Rico, is the main question of interest at Camp Thomas.

The men of the regiments in the first corps are awaiting the outcome of the general's trip with especial interest on account of the fact that they will accompany him on the Porto Rican invasion. The first corps is ready to move at any time. The weather is again unfavorable for steady work today. Frequent showers interfere with the drills and the men are kept in camp the greater portion of the time.

Fifteen car loads of supplies—an entire train—are being unloaded at the camp today. The amount of supplies now on hand is enormous but more arrive daily.

Since the soldiers have been encamped here no less than from $3,000,000 to $5,000,000 worth of quartermasters' supplies have been issued the various commands by Captain McCarthy.

This does not include the enormous amount of clothing and equipage handled through the office of Captain Zalinski, in charge of these supplies as a separate department of the quartermaster's department. The returns of Captain McCarthy's office will be the largest to go to the war department since the civil war.

From official figures furnished by the quartermaster it is seen that at least $1,000,000 worth of stock has been handled since the mobilization of General Brooke's vast army.

According to statistics in Captain McCarthy's office there are now over 10,000 head of stock scattered over the great military camp.

There are now two regiments of cavalry, two extra troops of cavalry and about thirty-five batteries of artillery and several thousand horses are attached to the commands while the remainder are used as wagon and ambulance trains and officers' mounts.

Captain McCarthy estimates that the mules and horses are about equally divided as to numbers.

This stock consumes an enormous amount of forage in a month, much more than could be furnished in this section alone. The records for thirty days show that no less than 3,500,000 pounds of oats and 4,500,000 pounds of hay have been consumed

Among other interesting statistics shown at the quartermasters' office are those indicating the amount of cordwood burned in thirty days. The records indicate that over 5,000 cords of heavy timber is burned each month, used for cooking purposes exclusively. This wood is shipped into Camp Thomas by the car load.

Wagon load after wagon load of surplus baggage is now being packed at Camp Thomas and turned over to the quartermaster's department for safe keeping.

This includes extra overcoats, blankets and other clothing and equipage belonging to various states as well as all kinds of personal property belonging to the soldiers. The stuff is packed away in boxes, labelled with the company and regiment to which it belongs and stored in Chatanooga with the department quartermaster.

After the war is over this property will be turned over to the men to whom it belongs.

Summer clothing less than cost.

RIGHTS ANNULLED.

Civil Liberties in Spain Are Abolished by a Royal Decree.

TEMPORARY DESPOTISM A STEP TO PEACE.

MADRID, July 15.—5 A. M.—The Official Gazette today publishes a royal decree temporarily suspending throughout the Spanish peninsula the right of individuals as guaranteed by the constitution. The decree adds that the government will render an account to parliament of the use it may make of this measure.

The publication of the decree is generally accepted as being convincing proof that Spain is now ready to sue for peace and that negotiations to that effect are actually in progress. The government wishes to have full power to suppress any evidences of discontent or rebellion whenever they appear. The Carlists are furious and are sure to attempt to create trouble.

One minister expressed the conviction that official overtures for peace will be made before Sunday, and there is reason to believe that France has offered her services to Spain and that Spain has drawn up conditions for peace which offer a basis for negotiations.

Premier Sagasta is quoted as saying that Spain wants peace, but that "it must be an honorable peace as Spain deserves. The army," the premier is said to have added, "is anxious to resist to the last, but the government cannot consent to such a useless sacrifice. Had we our fleet the situation would be very different."

CORREA OUTLINES A BASIS OF PEACE.

MADRID, July 15.—NOON.—The minister for war, General Correa, is quoted as saying in an interview that he thought peace might be arranged on the following terms:

The United States and Spain to agree to let the Cubans decide by a plebiscite whether they desire independence or autonomy under the suzerainty of Spain.

The two governments to agree to abide by the result of the plebiscite.

In the event of the Cubans voting for independence, the United States to allow Spain nine months in which to withdraw her army, gradually and dignifiedly from Cuba.

PACIFIC TENDENCY IS INCREASING IN SPAIN.

MADRID, July 15.—Noon.—The pacific tendency is increasing. The general public take a favorable view of the suggestion that the powers should attempt the establishment of peace, but it is said contrary to the reports current, France has not taken the initiative.

NO OVERTURES HAVE REACHED WASHINGTON.

WASHINGTON, July 15.—"There have been no overtures for peace received by any United States embassy or legation abroad or by the department of state at Washington."

That was the statement made by a member of the cabinet who is thoroughly familiar with the conditions as they exist today, and was called forth by various reports that ranged all the way from an announcement that the basis for a treaty of peace already had been reached, to the more guarded declaration that the Spanish government had conveyed in an unofficial manner to the United States government an intimation of some of the concessions it was prepared to make to secure peace.

The prospects for the speedy institution of peace negotiations have brigthened decidedly since the collapse of the Spanish resistance at Santiago. The moral effect of that victory for the American arms is beginning to be felt in the direction of peace. If the cabinet has discussed terms of peace up to this moment, the fact has not been divulged by any responsible source. Now and then one of the government's agents in Europe communicates some message summing up European gossip, and naturally in view of the earnest desire for the European powers, this gossip tends to bear out the belief that peace negotiations are at hand.

The president hopes so. He has made no concealment of his desire for a speedy termination of the war.

Such a position on his part is entirely irreconcilable with an earnest purpose to prosecute the war until its original purposes have been attained.

Before that time any overtures for peace must come from Spain. The news from Madrid that Spain had been practically placed under martial law is regarded as a most hopeful sign. It is construed to mean a purpose on the part of Spain to bind up in advance the turbulent elements in Spain that might be expected to take advantage of the public discontent caused by the heavy sacrifices the government must make to obtain peace in order to cause a revolution and overthrow the monarchy.

It is realized here by the officials that every day will bring forth a fresh crop of peace rumors, few with any foundation, but their very circulation and the credence gained for them is regarded as encouraging a general belief that the Spanish cause is near its end.

BRITISH SCHOONER HELD BY PRIZE CREW.

KEY WEST, Fla., July 15.—The British schooner E. R. Nickerson, which was captured on July 30 by the Hornet, Hist and Wampatuck, off Cape Cruz, while attempting to run the blockade into Manzanillo, was brought here this morning by a prize crew under Lieutenant Dougal. She had a cargo of provisions, hogs, goats, etc. She had a crew of negroes and two passengers are on board. She was bound from Jamaica.

LARGE ORDER FOR SHRAPNEL SHOT.

CUYAHOGA FALLS, Ohio, July 15.—The Falls Rivet and Machine company of this place has received a large order from the government for shrapnel shot and for 3,000 7-inch howitzers of 105 pounds each. The works of the company will be enlarged to fill orders.

GLOOMY STORIES COME FROM ILIOLO.

HONG KONG, July 15.—Letters received here today from Iliolo, dated July 8, say a severe scarcity of food and cash prevails there. The merchants are using paper in their business transaction, payable on the arrival of funds. The sugar mills have been stopped owing to the working people having deserted. The cane is rotting in the fields and it is estimated that a quarter of the sugar crop is already ruined.

McCoy and Corbett Sign Articles.

NEW YORK, July 15.—Articles of agreement for fight between James Corbett and "Kid" McCoy, the match to take place at Hawthorne Athletic club, of Buffalo, on September 10, were signed in this city today. McCray signed for the Hawthorne Athletic club. George F. Considine for Corbett and W. B. Gray for McCoy. The purse is to be $20,000, the winner to take all.

GENERAL TORAL appears to be a wise and discriminating gentleman.

THE Spanish commander at Santiago is no porker. He knows when he's got enough and he had plenty.

LET the government stick to the original proposition and return the Spaniards to Spain America has no need of them.

IT is not at all probable that General Toral ever heard the story of Davy Crockett and the coon, but he knows that same lesson of philosophy that the coon had learned

DE BLANCO is bursting with desire to die for country let him return to Spain and get himself hanged as a blustering fool He it is who wants the war continued

GERMANY doth protest too much Her neutrality will be more apparent to the United states always when she is neutral So long as the kaiser is no ally of Spain it will be unnecessary for his journals to set out to prove by diagrams and rows of figures that he is keeping to the "middle of the road" Uncle Sam has not played this sort of chess so much as Germany, but he knows how and when to checkmate Watch him

IT is proposed to devote one night during the forthcoming street fair to a carnival of merrymaking much after the fashion of the Mardi Gras festivals given in New Orleans St Louis, Kansas City, and other cities The city is to be turned over to the masquers and revelry is to reign This is all very well, but the committees having charge of the fair should recollect that different people will hold different notions as to what constitutes fun No one should be restricted in the enjoyment of any proper and legitimate pleasure, but there are those who will take advantage of such a festival to commit indulgences that ordinarily no decent person would think of tolerating for a moment Let the committees and the authorities see that [illegible] all of the bounds [illegible] the [illegible] Watch [illegible] [illegible] [illegible]

BOY KILLED.

Another Illustration of the Dangers of Train Jumping.

John Anderson Ground to Death Beneath Car Wheels at Ridgeville—Local and Personal.

Orsa A. Antles, a lad about fourteen years old, was instantly killed by the cars at Ridgeville, Ind., yesterday afternoon. He attempted to climb upon a gravel train when it was in motion, lost his hold, fell and was litterly cut into pieces by the wheels. Four or five cars passed over the boy before the trainmen discovered him and could stop the train. The unfortunate lad was a member of one of Ridgeville's leading families and the accident has thrown the citizens of that village into the greatest sorrow. No blame for the accident can be attached to the trainmen.

Mrs. J. E. Allen, wife of the Nickel Plate brakeman, is quite sick, and in consequence that gentleman has been unable to work for a few days.

Joe Buckley, of the Bass blacksmith shop, was prostrated by the heat on the streets last night and had to be taken home. He is better today, but unable to work.

The owners of the Toledo and Northwestern have decided to extend the line to Hanover, where it will connect with the Detroit, Toledo and Milwaukee, a Brice line.

Within the last thirty days nine employes on the Chicago and Eastern Illinois have been discharged for using intoxicating liquors contrary to the rules of the company.

The Standard Wheel company is having new roofs put upon some of its buildings. The company will never run the works again. In fact all machinery has been removed there from.

Hon. J. H. Bass arrived home from New York this morning. He is ready for the final deal in the reorganization of the Bass Foundry and Machine works, which will be effected next Friday.

Frank Clemons, a carpenter, had the misfortune last evening to cut a deep gash in his left foot with an adze. He was engaged in fixing a new floor in the Wabash machine shop when he met with the accident.

The present week there were repaired and turned out of the Pittsburg shops engines 152, 241, 247, 102 and 317, and taken in for repairs engines 229, 151, 221 and 1, making twelve still undergoing repairs.

Indianapolis Journal: "Passenger train men on the Pennsylvania line were yesterday notified that they must discard tan shoes and wear well-polished black shoes and dark or black neckties, instead of light ones."

The Chicago and Erie has made Rochester, Ind., a division point for its local freight and accommodation trains, and is putting in three miles of sidetrack and erecting a six-stall roundhouse, so constructed as to be readily enlarged.

The Chicago and Eastern Illinois has just placed a contract with the Pittsburg locomotive works for seven consolidated engines of the same type as the five built for that road recently, and which are performing satisfactorily.

The Erie has given notice of its withdrawal from the Buffalo Railway Passenger committee, and in passenger circles it is thought to mean a rate war between Buffalo and New York city, and possibly to Chicago, Cincinnati and other western points.

It was purchased with money contributed by the employes of the Berghoffs. The completion of the unfurling ceremony was announced by cheers and the blowing of the brewery whistles.

President Caniff, of the Nickel Plate, will pass through the city on No. 5 this evening, en route to Chicago. Tomorrow morning he commences an inspection of the Monon road and will travel over the entire line by special train. In view of the fact that the Monon is said to be for sale and that the Vanderbilts are said to want the property, Mr. Caniff's trip is not without its significance.

Indianapolis Journal: "The latest report is that it is the Wabash that is seeking to secure control of the Monon. It certainly would be more valuable to the Wabash than any road which has been suggested, as it would let the Wabash into Louisville, Indianapolis and the stone quarries of Bedford, and would really be a sensible deal. Still, there is the best of authority for saying that the Monon is not for sale."

The merits of the Baldwin and the Brooks build of engines have been a question for dispute among Monon engineers for some months, each engine having its friend. Numerous tests of speed and hauling power have been made with the result that the Brooks engine can out run the Baldwin with a train of five cars, but when two or more cars are added, the Baldwin is the most speedy.

General Superintendent Magee has announced that any employe in present good standing on the Wabash records desiring to enlist in the United States army for the present war with Spain, will retain his standing record with the Wabash railroad, provided that he returns to its employ within thirty days after his honorable discharge from the service of the government, such discharge to follow the termination of the Spanish war within a reasonable time

Officer Hobbs this morning arrested two young fellows who were bathing in the St. Mary's river near the Van Buren street bridge. Complaint has been made to the police of the continual bathing of young men while nude, and the authorities have determined to put a stop to it.

Ten Thousand Delegates Attending the B. Y. P. U. Convention in Buffalo.

BUFFALO, N. Y., July 15.—Fully 10,000 delegates and visitors to the annual convention of the Baptist Young People's union have registered at headquarters. The Leon Lake union was a close second in the race for its possession.

During the morning the "workers in council" held a number of meetings at which many interesting papers were read. The councils holding meetings were organization, bible work, missions, social reform and junior reform. The convention proper was called to order shortly after 9 o'clock.

FOR THE SOLDIER BOYS.

A Benefit Lawn Festival to be Given in the Near Future.

It is not a comforting matter to chronicle, but it is said to be true that the people of Fort Wayne are not as solicitous for the welfare of the brave boys who have gone to the war as are the people of many other communities. The boys in camp at Chickamauga report that their comrades from other cities and other states are handsomely remembered by friends at home, receiving many boxes of delicacies and necessaries that the camp does not afford, whereas the Fort Wayne soldiers seem to have been forgotten.

This state of affairs has aroused some of the kind and patriotic Fort Wayne ladies to activity and a lawn festival will be held in the near future, the proceeds to be devoted to the soldiers from this city. Mrs. Frank Alderman and Mrs. George B. Crane have taken the matter in hand and have invited the co-operation of the Hibernian Rifles to make the project a success. Last night a committee from the Hibernian Rifles met a committee of ladies at the home of Mrs. Alderman and some of the preliminary details of the festival were arranged. The festival will be held at the Alderman home and one of the bands of the city will be present.

SUMMER NIGHT FESTIVAL.

Fort Wayne Turn-Verein to Have an Outing at Centlivre Park Monday.

Next Monday afternoon and evening the Fort Wayne Turn-Verein will give a grand concert and scholar picnic and summer night's festival at Centlivre park. There will be a concert by the City band from 2 o'clock until 6 o'clock in the afternoon. At 4 o'clock gymnastic games and athletic exercises will begin. Among the features will be the performance of Alfred Kresso, of Detroit, on the swinging rings. Professor Kresso has but one leg, but he is nevertheless an artist on the rings and his performance is said to be marvelous.

Inspired by the splendid American victory at Santiago the patriotism of Master Wilbur Bloom, son of Undertaker Bloom, this morning burst all restraint and he raised a fine flagstaff at his home, 185 Columbia avenue, this morning. From the peak of the staff the stars and stripes are proudly floating in the cool breezes of the upper atmosphere.

Huntington Herald: "Col. R. G. Thompson, of the Wabash railway, was down from Fort Wayne this morning. Asked as to the rumor of his candidacy for secretary of state, Mr. Thompson said he had no such purpose. He had received very gratifying offers of support from many sources throughout the state, but his affairs were in such a shape as to make it impossible for him to become a candidate this year."

A crowd of lovers of the dance went to Rome City last evening at 7 o'clock, returning about midnight. The affair was under the auspices of the D.'s of T., which was enough to insure its social success in every way. Mr. and Mrs. Will Reitze, Mr. and Mrs. A. L. Randall were among the chaperons, and the Fort Wayne colony at the little resort displayed their approving countenances during the evening. In spite of the heat in the city yesterday, it was cool enough near the lake breezes to trip the waltz and two-step, and not many "sat out" the numbers.

The people of Fort Wayne showed their patriotism and willingness to help Uncle Sam whip the Spaniards by subscribing for almost $200,000 of the war bonds. Almost one-half of these bonds were subscribed for by persons who could only buy less than $500 worth, demonstrating that even the less wealthy are willing to take a chance on Uncle Sam's promise to pay, especially when he needs the money to whip some sneaking foreign country with.

GENERAL TOTAL appears to be a wise and discriminating gentleman.

THE Spanish commander at Santiago is no porker. He knows when he's got enough and he had plenty.

LET the government stick to the original proposition and return the Spaniards to Spain. America has no need of them.

IT is not at all probable that General Toral ever heard the story of Davy Crockett and the coon, but he knows that same lesson of philosophy that the coon had learned.

IF Blanco is bursting with desire to die for country let him return to Spain and get himself hanged for a blustering fool. He is the one who wants the war continued.

GERMANY "doth protest too much." Her neutrality will be quite apparent to the United States always when she is neutral. So long as the kaiser is no ally of Spain it will be unnecessary for his journals to set out to prove by diagrams and rows of figures that he is keeping to the "middle of the road." Uncle Sam has not played this sort of chess so much as Germany, but he knows how and when to checkmate. Watch him.

IT IS PROPOSED to devote one night during the forthcoming street fair to a carnival of merrymaking much after the fashion of the Mardi Gras festivals given in New Orleans, St. Louis, Kansas City, and other cities. The city is to be turned over to the masquers and revelry is to reign. This fanli very well, but the committees having charge of the fair should recollect that different people will hold different notions as to what constitutes fun. No one should be restricted in the enjoyment of any proper and legitimate pleasure, but there are those who will take advantage of such a festival to commit indulgences that ordinarily no decent person would think of tolerating for a moment. Let there be a carnival, but let the committees and the authorities see to it that it is confined to the bounds of decency. It will be well for Fort Wayne to avoid at the outset the enthusiasm-breaks that have attended similar festivals in other cities.

The Surrender of Santiago.

The fall of Santiago ought to end the war. It is somewhat doubtful, however, if such is to be the fruit of the magnificent victory begun by Commodore Schley and completed by General Shafter.

The territory surrendered is composed of about one-third of Santiago de Cuba, the easternmost province of the island, and the troops to lay down their arms include pretty nearly all of the effective force of Spain's fourth army corps in Cuba. Manzanillo and Holguin, considerable cities with Spanish garrisons, are not included in the surrender.

The surrender is important on many accounts, but in none more than that which relates to the condition of the American army. Yellow fever has broken out in American camps and there will be plenty to do fighting the pestilence without having at the same time to fight Spaniards. The center of Spanish power in eastern Cuba being broken, the enemy disarmed and his stronghold in our possession, the end of our brave soldiers becomes the next and highest duty and happily there is nothing to embarrass such attentions.

The critics who have been railing at the conduct of the Santiago campaign, and they were numerous, may now take a retrospective squint and then confess they were wrong all the time. General Shafter has managed a masterly campaign. What has seemed useless delay was time well spent. Those who thought Toral was fooling Shafter with a trick to gain time, themselves have been fooled. With no more sacrifice of life than followed in the fighting for advanced position at the front, General Shafter has forced the capitulation of the city and is now in possession.

Whether this last blow to fall upon the stupid Spanish meddle will be enough to bring on an awakening of common sense may be doubted, though as much is dearly to be hoped.

ESCAPED THE STORM.

[CONTINUED FROM FIRST PAGE.]

at the Hist's swaying mast head and a great cheer from a host of American throats swept through the squadron from ship to ship, while answering pennants flew from each vessel in response to the New York's repetition of the Hist's signal.

Eventually the Hist ran alongside the flagship and delivered her dispatch. It contained no details, being simply a brief message by wire to Admiral Sampson from General Shafter that the enemy had surrendered.

The admiral had not taken an active part in the negotiations, but he was consulted freely by General Miles and General Shafter, and undoubtedly he will be considered in the settlement of the final details of the surrender. He declined to discuss the matter further than to express joy at the fact that the taking of Santiago was accomplished without further bloodshed and to remark that the terms of the capitulation were not to be made known for some time.

Within five minutes of the Hist's arrival the signal officers ashore began sending messages with the wig-wag flag on the hill top to the right of the ravine, in which the ruins of Aguadores fort lie. This hill has been selected as the signal station, and from there was telegraphed to Admiral Sampson a confirmation of the surrender. This message was as unsatisfactory as was the Hist's to the officers of the fleet, who were anxious to know the terms of the surrender and other details, while the wig-wagged messages simply set forth the bare statement that the surrender of Santiago had occurred. The town was at once ordered to steam west to Morro Castle, evidently being sent to watch the movements of the men and the shore batteries.

General Toral surrendered in the nick of time, for had the plans of today's battle been carried out the city of Santiago would have been torn to pieces before night.

The fleet had the exact range and although the city was about eight miles away and hidden by the hills along the coast, Commodore Schley said that shells could be dropped in the heart of the town every two minutes for as long a time as General Shafter thought it necessary.

Aside from the work of the fleet, seven batteries of artillery were in position and so placed that three inch shells could have been hurled into the town from all sides.

The Spaniards, however, had made careful preparations and had even erected barricades in the streets, ready to fight to the very last.

General Shafter and his officers confidently expected the American loss to be heavy if the attempt had to be made to capture the city by assault, and elaborate hospital arrangements were made in anticipation of such an occurrence, a large number of tents having been erected at Siboney since the buildings there were burned.

MUNICIPAL AFFAIRS.

The Board of Works Transacts Routine Business.

Council Curbing to be Placed on the West Side of Hoagland Avenue and Street Residents Want Sewer.

The board of public works last evening received a delegation of Cass street residents who want Parkhurst cement curbing instead of Berea stone. They were accompanied by Attorney Henry Colerick, who presented the arguments of the Cass street petitioners. The matter was taken under advisement.

The board received, but did not act upon, the petition of M. H. Auenbruck and others, for the vacation of the alley between Clay and Monroe streets, from Washington street to the alley south. The petition of O. N. Beeton and others, asking that a cement sidewalk be constructed next the curb on the west side of Hoagland avenue, from Creighton avenue to Pontiac street, was acted upon favorably, and the engineer was ordered to prepare the plans. The petition of S. A. Drew and others asking that a sewer be constructed in the alley between Elm and Main streets, from Mechanic street to the river, was received and plans were ordered.

The bond of George Wilhelm for relaying a sidewalk, was approved.

The resolution declaring the original plat of Williams' Woodlawn Park addition vacated, was confirmed, and the board then approved the second plat submitted for review.

Assessment rolls for the West Columbia street pavement, for grading and building sidewalks on Andrews street, and for grading and building sidewalks on Cottage avenue, were approved and the work accepted.

The engineer was ordered to prepare plans and specifications for sidewalks on the west side of Wabash avenue, from Maumee avenue to the Wabash right of way.

Edward Schlel was ordered to remove obstructions from the five foot alley between Main and Berry streets, from Calhoun street to the alley west. This concluded the business of the evening and the board adjourned.

WANT A CURFEW LAW.

Executive Committee of Associated Charities Takes Action.

The executive committee of the Associated Charities met yesterday afternoon and elected S. M. Foster in the position on the committee made vacant by the resignation of Mrs. G. E. Barsley. The committee also passed a resolution favoring the passage of a curfew ordinance and will urge the council to enact such a law at its next meeting. The members of the Associated Charities have been giving the matter considerable attention and believe that the license given children to be on the streets at night is bound to result in harm. The matter was discussed at the meeting of the committee yesterday afternoon and several of those present recited instances coming under their personal notice of children, many of them of good families, just going to ruin through being permitted to wander about the streets until 9 or 10 o'clock at night.

Some Facts As To The Curfew Law.

The following letter is entirely self explanatory:

"To Mrs. Ellen Wright, Greensburg, Ind.:

"DEAR MADAM:—In reply to your request as to the effects for good or bad in our city of the curfew law, I can truly say that the law has been of great value. In my judgment our citizens are all convinced that this is true. At least the city officers all know it, and in Greensburg the curfew law has come to stay. Respectfully,

"O. P. NORTHERN, Mayor."

The city of Lincoln, Neb., was the first to introduce the law, and Mayor Graham reports it a great success. The mayor says there was a decrease of 75 per cent. in the arrests of youths; no increase of police was needed to enforce the law, and there was a decided improvement in the morals of the young people.

Samuel Mellick, chief of police of Lincoln, says: "Teachers in public schools say that since the law went into effect boys who formerly kept late hours on the streets at night, and were behind in their studies, under the curfew law attended school regularly, are mentally brighter and better prepared in their studies."

Three hundred towns and cities have passed the curfew law and it seems to be growing in favor everywhere. From many places where it has been tried there are enthusiastic praises of its merits.

Officials in Omaha, Denver, Des Moines, St. Joseph and other places are emphatic in its praise.

PRESS REPORTER W. C. T. U.

Grand Benefit Entertainment.

The Woman's Relief Corps of the G. A. R., finding it necessary to raise a fund to provide for the wants of the soldier boys from Fort Wayne and any of their families that may need assistance, have arranged with the Holmberg Entertainment company, of Chicago, to give their fine illustrated entertainment all of next week at White's hall, opposite the Temple. The program embraces all the leading events of the present war, including views in Cuba, Puerto Rico, and the Philippines, as well as pictures of Dewey, Sampson, Schley and Hobson, Generals Miles, Shafter and Lawton, the battle of Manila, bombardment of Santiago and Matanzas, and over fifty pictures of the One Hundred and Fifty-seventh Indiana Volunteers, including the companies from Fort Wayne. In addition to this Mooring vitascope pictures will be shown, and patriotic and popular songs will be sung and illustrated. A brief descriptive lecture accompanies the war views. The company is highly endorsed by the press of other cities. There is no doubt as to the success of the undertaking, especially in view of the worthy object for which it is given.

STAR POINTER.

The Champion Travels an Exhibition Mile in 2:02 1-4.

The Fastest Record Ever Made by Any Horse While Lady in the Sunny—Racing at Detroit.

PEORIA, Ill., July 15.—Star Pointer lowered the record of the Peoria mile track, made by Bumps, from 2:05 to 2:02¼. With two running mates, one of which accompanied him the entire mile and the other catching him at the half mile, he made the remarkable time on a track a trifle slow. It is the best record ever made by any horse on any track at this season of the year.

Twelve thousand people were on the grounds and cheered McClary and the handsome bay as they came down the stretch. Three attempts were necessary for the champion to get away, and on the second attempt Star Pointer raced past the first quarter post, where he broke. McClary pulled him down to a stop, and, returning, tried it over again. He nodded to Starter Dyllegraff as he came down, his running mate at his side, and the word was given. The first quarter was made in :30, the half in 1:01, the third quarter in :30½ and the mile in 2:02¼.

The 2:09 pace, $1,000—Beachlight was in three straight heats; Parlmont second and Carbonate third. Time, 2:07¼, 2:07, 2:12¾. Miss Williams and Joe Ile also started.

The 2:25 trot, $1,000—D. C. won in three straight heats. Time, 2:23¾, 2:23¾, 2:19¾. Wilkes Base, F. W. R., Pilot and Lambert also started.

NEWTON W. WON AT DETROIT.

DETROIT, Mich., July 15.—After much splitting of heats Newton W. captured the 2:15 pace at Highland park. Harry Omer, the Ohio gelding, was in the race at all stages, the final heat being so close between him and Newton W. that none but the judges could tell the result. Results:

The 2:10 trot—Grace Darling won second, third and fourth heats. Time, 2:24½, 2:21¾, 2:22¾. Startella won first heat in 2:25. Clark, William C. K., Gertie D., Lulu M., and Mona B. also started.

The 2:15 pace—Newton W. won second, sixth and seventh heats; time, 2:11¾, 2:14¾, 2:15¾. Harry Omer won fourth and fifth heats in 2:13½ and 2:14¾. Rhoda Farrand won third heat in 2:10¾. Mamorin won first heat in 2:10¾. J. D. Kirkwood, Edgar Ross and Dick Vail also started.

CHILE TO ISSUE MONEY.

Financial Crisis So Acute That Congress is Forced to Take Action.

VALPARAISO, Chile, July 15.—The financial crisis grows more acute. Congress has passed a law authorizing the president for one year to issue paper money to the extent of $50,000,000, to be loaned to banks on adequate guarantee. Twenty million dollars of this loan is issuable at 4 per cent. The president is further authorized to borrow £4,000,000 ($20,000,000) to enable him to withdraw the paper money at the end of four years.

Davis, Meaks and Lahr, of the Lincoln Tax company, had a hearing before United States Commissioner Logan yesterday on the charge of using the mails for improper purposes. Meaks and Lahr were released and Davis was compelled to give $200 bond. Dan Gorman was held and will be taken to Indianapolis to await trial.

NEW CASTLE WON.

Fort Waynes Had One Bad Inning and that Was Enough.

Clarence Smith's Home Run Started the Brevity and Nine Runs Crossed the Plate to Score.

Fort Wayne played its first game of the series at New Castle yesterday, and with O'Meara ill and confined to his room, Hickey was compelled to go behind the bat. Minnehan was opposing his old mate in the box and did fairly well until the fifth inning, when, with the score 8 to 1 he was taken ill and had to retire. Clarence Smith succeeded him and in the sixth with men on bases, the three-fingered twirler knocked out a home run. This started some run-getting, and when the inning was ended nine New Castle players had crossed the rubber. Here's support was bad in this inning and the Hoosier boys could not keep his opponents from hitting the ball. Thereafter they could not solve his delivery. Score:

OPENING NIGHT.

The Robison Park Theater to be Formally Dedicated This Evening.

This is the opening night at Robison park theater. For the accommodation of the patrons of the line, whose number tonight will be largely augmented, there will be a special service commencing at 6 o'clock, from which hour a car will be run every three minutes, thus greatly facilitating going to and returning from the park. To those who failed to receive invitations the management desires to say that no more invitations were issued than there are seats in the house, and as it is not likely that every recipient of an invitation will attend, there will be no difficulty in providing accommodations for all friends of the park who will present themselves.

Commencing tomorrow cars will leave the transfer station every twelve minutes during the forenoon instead of every hour as the present schedule is arranged. The twelve minute schedule will continue in effect until 6 p. m. when a five minute schedule will be observed. This schedule will be shortened should circumstances demand it. Guests this evening are requested to be in their seats not later than 8:10 as the performance will commence promptly at 8:15. The reserving of seats will commence at 6 o'clock and those coming earliest will have first choice

BOY KILLED.

Another Illustration of the Dangers of Train Jumping.

John Anderson Ground to Death Beneath Car Wheels at Ridgeville—Local and Personal.

Gen A. Antles, a lad about fourteen years old, was instantly killed by the cars at Ridgeville, Ind., yesterday afternoon. He attempted to climb upon a gravel train when it was in motion, lost his hold, fell and was litterly cut into pieces by the wheels. Four or five cars passed over the boy before the trainmen discovered him and could stop the train. The unfortunate lad was a member of one of Ridgeville's leading families and the accident has thrown the citizens of that village into the greatest sorrow. No blame for the accident can be attached to the trainmen.

It was purchased with money contributed by the employes of the Berghoffs. The completion of the unfurling ceremony was announced by cheers and the blowing of the brewery whistles.

President Camff, of the Nickel Plate, will pass through the city on No. 5 this evening, en route to Chicago. Tomorrow morning he commences an inspection of the Monon road and will travel over the entire line by special train. In view of the fact that the Monon is said to be for sale and that the Vanderbilts are said to want the property, Mr. Camff's trip is not without its significance.

Indianapolis Journal: "The latest report is that it is the Wabash that is seeking to secure control of the Monon. It certainly would be more valuable to the Wabash than any road which has been suggested, as it would let the Wabash into Louisville, Indianapolis and the stone quarries of Bedford, and would really be a sensible deal. Still, there is the best of authority for saying that the Monon is not for sale."

The motils of the Baldwin and the Brooks build at engines have been a question for dispute among Monon engineers for some months, each engine having its friend. Numerous tests of speed and hauling power have been made with the result that the Brooks engine can out run the Baldwin with a train of five cars, but when two or more cars are added, the Baldwin is the most speedy.

General Superintendent Magee has announced that any employe in present good standing on the Wabash records desiring to enlist in the United States army for the present war with Spain, will retain his standing record with the Wabash railroad, provided that he returns to its employ within thirty days after his honorable discharge from the service of the government, such discharge to follow the termination of the Spanish war within a reasonable time.

FOR THE SOLDIER BOYS.

A Benefit Lawn Festival to be Given in the Near Future.

It is not a comforting matter to chronicle, but it is said to be true that the people of Fort Wayne are not as solicitous for the welfare of the brave boys who have gone to the war as are the people of many other communities. The boys in camp at Chickamauga report that their comrades from other cities and other states are handsomely remembered by friends at home, receiving many boxes of delicacies and necessaries that the camp does not afford, whereas the Fort Wayne soldiers seem to have been forgotten.

This state of affairs has aroused some of the kind and patriotic Fort Wayne ladies to activity and a lawn festival will be held in the near future, the proceeds to be devoted to the soldiers from this city. Mrs. Frank Alderman and Mrs. George B. Crane have taken the initiative and have invited their co-operation of the Hibernian Rifles to make the project a success. Last night a committee from the Hibernian Rifles and a committee of ladies at the home of Mrs. Alderman and some of the preliminary details of the festival were arranged. The festival will be held at the Alderman home and one of the lands of the city will be present.

Mr. Hall is known from one end of the State of Pennsylvania to the other, having been in the ministry for over half a century. He had received very gratifying offers of support from many sources throughout the state, but his affairs were in such a shape as to make it impossible for him to become a candidate this year."

A crowd of lovers of the dance went to Rome City last evening at 7 o'clock, returning about midnight. Randall were among the chaperons, and the Fort Wayne colony at the little resort displayed their approving countenances during the evening.
